

pressed for time?

full colour transfer printed bags
low cost, low volume...rapid turnaround

Transfer printed cotton, canvas & duffle bags
Low cost, low volume...rapid turnaround

Keepme Bags are pleased to announce that we now have in-house automated heat presses and state of the art high definition transfer printers.

The clear films used look very much like a direct print with no visible background white. The films also do not have a rubbery feel.

Minimum order quantities are low at 100 pieces with a fast 48hr order turnaround. Prices listed include setup and delivery (to mainland UK). Free pre-production samples are available allowing you to clinch any potential deals.

All of our cotton and canvas bags are ethically sourced - every purchase supports the CRY foundation.

CRY (or "Child Rights and You") is an organisation set up to protect the interests of underprivileged children in India by addressing the root causes of inequality. Issues like gender, caste, education and livelihoods are at the heart of the effort and the money to make the change comes from CRY's partnership with professional bodies like KeepMe.
